

Personal & Property Insurance

[Charles Wilkinson Financial Planning Ltd](#) is concerned at the number of people referred to us who do not have adequate insurance cover. The insurance needs of the older client are not always met by the standard package of cover. To alleviate this we offer a service through J Illingworth & Co Ltd.

J Illingworth & Co Ltd is a well established and respected insurance brokerage based in the centre of York. Founded in 1973 by Jack Illingworth, the company has grown from strength to strength maintaining the founding principles of professionalism, integrity and high levels of customer care.

A good broker offers independent and impartial advice; finds policies best suited to individual requirements and delivers high standards of service regulated by the Financial Services Authority.

As a local brokerage, they take pride in the knowledge that the majority of their new business comes via recommendation. Offering a professional, personal and friendly service, they take every care to ensure customer expectations of service are not only met, but exceeded.

Having elderly clients or relatives going into care can be a very difficult time for those involved. They can help by giving people peace of mind in the knowledge that their property and possessions are insured.

Quite often when someone goes into a care home they leave behind a property unoccupied pending sale, or one to be let by relatives to generate income. In both cases they can help by providing short-term, or annual, policies for unoccupied properties, or by providing cover for rental properties.

Whilst an immediate relative may sometimes already have cover under their own policy for their parents' possessions in a residential home, policies are available which cover contents with small sums insured for people residing in nursing homes, residential homes or sheltered housing. For example, it is possible to include jewellery and hearing-aid cover, both of which can be costly to replace if damaged or lost. Similarly, cover can be arranged for wheelchairs and mobility scooters. Cover provided by the care home may be limited so it is always wise to check.

Researching and evaluating appropriate insurance cover can be a time-consuming process. By using J. Illingworth & Co Ltd, clients will find a brokerage dedicated to providing solutions to their insurance requirements.

If you would like to receive further information, or a quotation on any of the areas listed below, please complete the form and return it to J. Illingworth & Co Ltd.
